**Remarks**

**Remarks:** "If once you have slept on an island You'll never be quite the same" wrote the poet Rachel Field. Take the year-round mail boat from Northeast Harbor and find out for yourself. The house was built c.1872 for Colonel William Hadlock who was elected to the Maine legislature twice and served during the Civil War with the 28th Maine Infantry Regiment. Its yellow exterior and commanding presence make it a landmark on Main Street. Conveniently located close to the harbor for the year-round mail boat (or your own boat) and for the enjoyment of the entire island. The main house consists of 8-bedrooms and 2.5-bathrooms on three floors. Enter through the covered front porch on the side into a mud room to the eat-in kitchen with wood floors and cabinets. Note the high ceilings. Follow through to the dining room with crown molding and wide wood floors. A half bath is on this level. Enjoy the den which has attractive half wainscoting. The living room offers partial views of the water over the harbor, a front opening wood stove, and the double front door with vestibule. The second floor has an attractive landing, a bathroom with tub & shower. Four bedrooms on this floor, one of which has an exterior porch with harbor views (morning coffee, watch the gulls as the boats come in). The third floor offers another four bedrooms and a bathroom. There is a full basement plus the addition, which accommodates the laundry, workshop, storage and many options. During the 50+ years of the current ownership, Colonel's has been continually restored, offering a timeless feel but with the addition of modern necessities of 21st century living. The integrity of this year-round, move-in ready island home remains. More photos coming.

PROPERTY LOCATED AT: 20 Main Street, Little Cranberry Island, ME 04646

## SECTION VI – FLOOD HAZARD

For the purposes of this section, Maine law defines "flood" as follows:

- (1) A general and temporary condition of partial or complete inundation of normally dry areas from: (a) The overflow of inland or tidal waters; or (b) The unusual and rapid accumulation or runoff of surface waters from any source; or
- (2) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event that results in flooding as described in subparagraph (1), division (a).

For purposes of this section, Maine law defines "area of special flood hazard" as land in a floodplain having 1% or greater chance of flooding in any given year, as identified in the effective federal flood insurance study and corresponding flood insurance rate maps.

During the time the seller has owned the property:

Have any flood events affected the property? ..... ☐ Yes ☒ No ☐ Unknown

If Yes, explain: \_\_\_\_\_

Have any flood events affected a structure on the property? ..... ☐ Yes ☒ No ☐ Unknown

### IF YOU WORK WITH CCA WOOD

- **NEVER** burn CCA wood.
- Wear gloves when handling CCA wood
- Wear a dust mask when sanding or cutting CCA wood
- Don't work with CCA wood in an enclosed area (like a garage)

Apply a coating to seal the wood every 1-2 years

## Does Your New Home Have Arsenic (CCA) Treated Wood?

About half of all Maine homes have a deck, or playground or some other structure that is made of wood treated with arsenic. This wood is called "CCA pressure-treated wood" or just "pressure-treated" wood. The wood was treated with arsenic to protect against rot and insects.

Too much arsenic can cause cancer. So it is good to prevent arsenic getting into your body when you can. When you touch wood treated with arsenic, you can get arsenic on your hands. The arsenic on your hands can get into your mouth if you are not careful about washing before eating. Young children are most at risk because they are more likely to put their hands in their mouths. The good news is that there are simple things you can do to protect yourself and your family from arsenic treated wood. This fact sheet will tell you how.

Children touching unsealed treated wood, and then putting their hands in their mouths is the biggest concern.

### First: Does your house have arsenic treated (CCA) wood?

When arsenic treated wood is new, it tends to have a greenish tint. When CCA wood is older, it is harder to tell. Ask your realtor if the seller knows whether CCA wood was used. You can also test the wood to find out if it contains arsenic. Call us to find out how.

### Second: If so, reduce contact with the arsenic.

You can lower the amount of arsenic on the surface of the wood by applying a coating on the wood every 1-2 years. Oil-based sealants, varnishes, or polyurethane work best for sealing arsenic in the wood. Be sure to wash your children's hands when they finish playing on or near CCA wood.

**Third: If you have any questions, call us toll-free in Maine: 866-292-3474**

## Common Questions

### What is CCA wood?

CCA wood is made by dipping the wood in a mixture of chemicals. These chemicals include chromium, copper, and arsenic. This protects the wood against insects and rot. This wood is known as CCA wood or "pressure treated" wood. Most pressure treated wood in the U.S. is CCA wood. After December 31, 2003, no more CCA wood will be made for use around homes. CCA wood may still be sold for home use until April 1, 2004 in the state of Maine.

### What is Arsenic?

Arsenic is found in soil and rocks. Most people get a little arsenic every day from the food they eat. Also, some people have arsenic in their private wells, which is why it is important that anyone with a well have it tested for arsenic. People who are exposed to too much arsenic over many years are more likely to get cancer.

# Have you tested your well water for arsenic?

## **Your water looks, smells and tastes fine. So why do you need to test it?**

It is hard to believe that water that looks, smells and tastes fine may not be safe to drink. But the truth is that 1 in 10 wells in Maine has water that is high in arsenic. There are wells high in arsenic in all parts of Maine.

## **Protect your family. Test your well for arsenic every 3 to 5 years.**

### **How to Test Your Well Water**

#### **1. Call a lab.**

- Call a certified lab and ask for an arsenic test kit for your well water. You can find a lab at this website: [wellwater.maine.gov](http://wellwater.maine.gov). Or call the Maine Lab Certification Officer at 207-287-1929.
- If you have never tested your well water for bacteria, nitrites and nitrates, or other chemicals like radon, uranium and fluoride, ask your lab for a test kit for all of these.

#### **2. Do the test.**

- Your test kit will arrive in the mail. It will have empty bottles, directions and forms to fill out.
- Follow the directions and mail the bottles back to the lab with the forms.
- Watch a video on how to do a water test: [youtube.com/user/MainePublicHealth](http://youtube.com/user/MainePublicHealth)

#### **3. Get your results.**

- Your test results will come to you in the mail.
- If you have too much arsenic in your water, or if you are not sure you understand your test results, call 866-292-3474 (toll-free in Maine) or 207-287-4311 to speak to an expert.

### **Why Arsenic is Bad**

People who drink water with too much arsenic for many years are more likely to get cancer. Arsenic can cause skin, bladder and lung cancers.

It may cause low birthweight and affect brain development in babies if pregnant women drink water with too much arsenic in it. Arsenic can also affect brain development in young children. Other problems from drinking water with very high arsenic levels include: stomach pain, nausea, diarrhea, numbness or tingling in the hands and feet and changes in skin.

Your chance of having any of these health problems depends on:

- how much arsenic is in your water;
- how much water you drink;
- how long you have been drinking the water.

### **Solving Arsenic Problems**

There are actions you can take to protect your family if your water has too much arsenic. First, you can switch to bottled water for drinking and making drinks. This will allow you time to decide if you want to install a water treatment system.

Call us at 866-292-3474 (toll-free in Maine) or 207-287-4311 if you have high arsenic. We can help you decide how to solve the problem.

## REAL ESTATE BROKERAGE RELATIONSHIPS FORM

### **Right Now You Are A Customer**

Are you interested in buying or selling residential real estate in Maine? Before you begin working with a real estate licensee it is important for you to understand that Maine Law provides for different levels of brokerage service to buyers and sellers. You should decide whether you want to be represented in

a transaction (as a client) or not (as a customer). To assist you in deciding which option is in your best interest, please review the following information about real estate brokerage relationships:

Maine law requires all real estate brokerage companies and their affiliated licensees ("licensee") to perform certain basic duties when dealing with a buyer or seller. You can expect a real estate licensee you deal with to provide the following customer-level services:

- ✓ To disclose all material defects pertaining to the physical condition of the real estate that are known by the licensee;
- ✓ To treat both the buyer and seller honestly and not knowingly give false information;
- ✓ To account for all money and property received from or on behalf of the buyer or seller; and
- ✓ To comply with all state and federal laws related to real estate brokerage activity.

Until you enter into a written brokerage agreement with the licensee for client-level representation you are considered a "customer" and the licensee is not your agent. As a customer, you should not expect the licensee to promote your best interest, or to keep any information you give to the licensee confidential, including your bargaining position.

### **You May Become A Client**

If you want a licensee to represent you, you will need to enter into a written listing agreement or a written buyer representation agreement. These agreements create a client-agent relationship between you and the licensee. As a client you can expect the licensee to provide the following services, in addition to the basic services required of all licensees listed above:

services required of all licensees listed above:

- ✓ To perform the terms of the written agreement with skill and care;
- ✓ To promote your best interests;
  - For seller clients this means the agent will put the seller's interests first and negotiate the best price and terms for the seller;
  - For buyer clients this means the agent will put the buyer's interests first and negotiate for the best prices and terms for the buyer; and
- ✓ To maintain the confidentiality of specific client information, including bargaining information.

### **COMPANY POLICY ON CLIENT-LEVEL SERVICES — WHAT YOU NEED TO KNOW**

The real estate brokerage company's policy on client-level services determines which of the three types of agent-client relationships permitted in Maine may be offered to you. The agent-client relationships permitted in Maine are as follows:

- ✓ The company and all of its affiliated licensees represent you as a client (called "single agency");
- ✓ The company appoints, with your written consent, one or more of the affiliated licensees to represent you as an agent(s) (called "appointed agency");
- ✓ The company may offer limited agent level services as a disclosed dual agent.

### **WHAT IS A DISCLOSED DUAL AGENT?**

In certain situations a licensee may act as an agent for and represent both the buyer and the seller in the same transaction. This is called **disclosed dual agency**. Both the buyer and the seller must consent to this type of representation in writing.

Working with a dual agent is not the same as having your own exclusive agent as a single or appointed agent. For instance, when representing both a buyer and a seller, the dual agent must not disclose to one party any confidential information obtained from the other party.

**Remember!**  
*Unless you enter into a written agreement  
for agency representation, you are  
a customer—not a client.*

### **THIS IS NOT A CONTRACT**

It is important for you to know that this form is not a contract. The licensee's completion of the statement below acknowledges that you have been given the information required by Maine law regarding brokerage relationships so that you may make an informed decision as to the relationship you wish to establish with the licensee/company.
